INTER-TRANSPORT

Transport Intellectuals' Constructive Dialogue in Odessa

In the beginning of June in Odessa the XVII International Week on Trade and Transport, Exhibition "Inter-TRANSPORT" successfully completed its work.

The International Week on Trade and Transport is included into the plans of the Black Sea Economic Cooperation Organization (BSEC). European Union, Delegation of the European Union to Ukraine supports and takes an active part in the Event. The Ministry of Foreign Affairs of Ukraine, Ministry of Infrastructure of Ukraine, and Odessa Region State Administration are coordinating the Event. The Ukrainian Sea Ports Authority (USPA) is a general partner of the International Week on Trade and Transport, Exhibition "Inter-TRANSPORT".

May 30th - June 1st 2018

INTER-TRANSPORT

In the framework of the International Week on Trade and Transport **Ukrainian Ports Forum 2018**, which was jointly organized by the Ukrainian Sea Port Authorities in close partnership with the Centre for Transport Strategies (CFTS) and supported by Ministry of Infrastructure of Ukraine, Ministry of Economic Development and Trade of Ukraine, Ministry of Social Policy of Ukraine, Odessa Regional State Administration, on May 31st gathered the most influential representatives of the authorities, the Ukrainian and international business community on the international platform to discuss ways and prospects for implementing joint infrastructure projects in the ports of Ukraine and adjacent regions.

May 30th - June 1st 2018

INTER-TRANSPORT

The Transport Week was opened by the **Conference "Transport and Logistics – Effective Tools for Development of International Trade"**, organized by representatives of the "Visegrad Four" and Ukraine.

International Week on Trade and Transport is traditionally coincided with the International **Freight Forwarder Day** - annual forum of professionals in the field of transport, forwarding and logistics, where the key market players define the trends, share their experiences to achieve new goals.

ASSOCIATION FOR TRANSPORT, FREIGHT FORWARDING AND LOGISTICS ORGANIZATIONS IN UKRAINE «UKRZOVNISHTANS» held the **XVI-th International Freight Forwarders Day** under the auspices of the International Federation of Freight Forwarders Associations (FIATA), with the support of the Ministry of Infrastructure of Ukraine.

This year Conference was devoted to: development of digital infrastructure: modern systems of traffic management, business-models for joint usage of regional logistic platforms and resources, transport connection of the Baltic-Black-Caspian seas region with the third countries in the face of traffic flows development in this region, trade facilitation: implementation of WTO Agreement provisions on trade facilitation, data harmonization.

May 30th - June 1st 2018

INTER-TRANSPORT

Deputy Minister of Infrastructure of Ukraine for European Integration Viktor Dovgan, Head of the Ukrainian Sea Ports Authority Raivis Veckagans, president ICC Ukraine Vladimir Schelkunov, Yevgeny Kravtsov, acting head of the board of PJSC "Ukrzaliznytsia", Jerome Bleso, head EU Funded Project: Support to the Implementation of the Association Agreement and of the National Strategy in the Transport Sector in Ukraine (AASISTS), Alexander Lesnik, Executive Director of the "UKRPORT" Association of Ukrainian ports, Oleg Platonov, Association for Transport, Freight Forwarding and Logistics Organizations in Ukraine «UKRZOVNISHTRANS», Alexander Ilko - Director of the Department of Transport, Communications and Traffic Management of the Odessa City Council took part in the **opening ceremony of the 17th International Trade and Transport Week, the exhibition "Inter-TRANSPORT", and the exposition "Agro-Logistics"** and addressed with a welcoming speech the participants of the largest Black Sea Transport Forum.

The international transport exhibition "Inter-TRANSPORT", being organically weaved in the canvas of the XVII International Week on Trade and Transport, this year opened the doors for more than 100 companies from 9 countries (Ukraine, Belarus, Austria, Germany, Italy, China, Lithuania, USA, Sweden).

May 30th - June 1st 2018

INTER-TRANSPORT

At the "Inter-TRANSPORT" Exhibition exposition there were traditionally presented the leading ports of Ukraine. One could get acquainted with the new achievements in the sphere of cargo handling equipment, multimodal transportation and leading companies in the field of hydraulic engineering.

The Ministry of Infrastructure of Ukraine, the Ministry of Transport and Communications of the Republic of Belarus and PJSC Ukrzaliznytsia took active part in the work of the international Week.

For 17 years of history the exhibition "Inter-TRANSPORT" retains the composition of its leading participants. This year a number of companies for the first time presented their activities at the exposition of the exhibition.

For the first time Gomaco company is American manufacturer of road construction equipment. Gomaco introduced the technology of cement concrete pavement device.

Leading specialists of GOMAKO INTERNATIONAL LIMITED presented the latest developments in the report devoted to modern American technologies of construction and operation of concrete coatings in the framework of the Scientific and Practical Conference "Hydraulic engineering and transport construction: new materials and technologies".

May 30th - June 1st 2018

INTER-TRANSPORT

In the framework of Scientific and Practical Conference which was organized by the Odessa State Academy of Building and Architecture, the Faculty of Hydraulic Engineering and Transport Construction, issues of construction and repair of cement-concrete roads, restoring and strengthening asphalt pavements materials and technologies for strengthening embankments, construction structures on weak grounds, hydraulic engineering construction, use of geosot

mattresses, composite mats based on carbon fibers to reinforce existing structures were discussed.

Considerable interest was caused by the reports of UNIPROM representatives on the use of geogrids and geosot mattresses for the construction of facilities on weak grounds, information of foreign colleagues about modern materials and equipment for the construction of cement coatings and their repair and maintenance during exploitation.

Innovative solutions for hydraulic engineering were presented at the exposition decoration - the stand of ArcelorMittal Distribution Solution Vostok - models of sheet piles used for the construction of berths, locks, to strengthen the banks of rivers and canals, provide protection of excavations, as well as for earthworks for the construction of bridge supports, tunnels and underground parking.

Traditionally, leading enterprises of the hydraulic engineering industry were represented at the exhibition: ChernomorNIiproekt (Ukraine), Remstroytrest BSP (Ukraine), UNIPROM (Ukraine).

May 30th - June 1st 2018

INTER-TRANSPORT

For the first time during the exhibition, the largest enterprises of the industry TIS-HYDROTECHNICS (Ukraine), UKRSTROYSERVIS (Ukraine) presented their achievements in the construction and reconstruction of berths of seaports, construction of underwater excavations for installation of support bases for offshore structures, dredging, restore the passport depths of the water area and maintain a positive growth dynamics of cargo turnover.

For the first time at Inter-TRANSPORT, China Harbor Engineering Company Ltd. (China) - the largest state corporation in China, the leader in the construction of infrastructure facilities.

thyssenkrupp infrastructure presented a full range of services for global infrastructure projects: sheet piling profiles, vibratory pile drivers and drilling rigs, trench shutter systems, trenching systems, systems of scaffolding at the exposition of the exhibition "Inter-TRANSPORT" and the specialized session **"Construction, reconstruction, design and technical operation of port and coastal hydraulic engineering structures"**.

During the International Trade and Transport Week, Forx, the exclusive dealer in Ukraine of leading brands of loading equipment such as KALMAR and JCB, demonstrated the best equipment for **cargo handling** in open areas, warehouses and distribution centers.

May 30th - June 1st 2018

INTER-TRANSPORT

Earthmoving and materials handling equipment, mobile and tower cranes was presented by TD ARMADA LTD - the official distributor of LIEBHERR in Ukraine. The group of companies "Industry" - the official distributor of the South Korean company Doosan in Ukraine, introduced a range of earthmoving and loading equipment.

For the first time at the exhibition "Inter-TRANSPORT" WESTEUROPAINTS - the exclusive representative of WILCKENS FARBEN GmbH (Germany), presented coating systems for anticorrosive, anti-erosion, protective and decorative properties for the protection of technical objects and systems against corrosion and aggressive environments.

MT-DUKER, the exclusive representative of DUKER, one of the leading manufacturers of fittings and fittings for drinking water, gas supply, and pipes and fittings for the construction of waste water disposal systems, presented cast iron valves, closures, fittings for water supply at the Inter-TRANSPORT exhibition.

May 30th - June 1st 2018

INTER-TRANSPORT

Company Bedeschi, more than 100 years specializing in the design, manufacture and installation of **machinery for bulk materials handling and port logistics**, presented its activities at the stand of the partner of the company in Ukraine - Remtechmorport, specializing in repair, installation, reconstruction, modernization, design and supply of all types reloading equipment.

Security seals, highly reliable bolted, plastic, cable seals and meter seals were presented at the stand by Shandong Tengxin Seal Co. Ltd (China), which took part for the first time at the exhibition Inter-TRANSPORT.

May 30th - June 1st 2018

INTER-TRANSPORT

The transport and logistics companies of Lithuania, carrying out freight transportation and forwarding in the countries of Western and Eastern Europe, presented their activities at the exposition of the exhibition "Inter-TRANSPORT": ASA TRANSPORT SERVICE, Daimanta, Logibaltika, Nege, Ramitrans, SPEDILTA.

The leading Ukrainian state ports represented their activities and held active negotiations: Mariupol Sea Commercial Port, Kherson Commercial Sea Port, Sea Commercial Port "Chernomorsk, stevedoring company "Olvia".

May 30th - June 1st 2018

INTER-TRANSPORT

One could get acquainted with the new achievements in the sphere of **cargo handling equipment** at the stands of companies: FORX (Ukraine), LIEBHERR-WERK NENZING GmbH (Austria), ARMADA (Ukraine), KRANKOMPLEKT PLANT (Ukraine), KONECRANES UKRAINE (Ukraine), NOVOKRAMATORSKY MASHINOSTROITELNY ZAVOD (Ukraine), MHM UKRAINE, TRANS-SERVICE-KTT (Ukraine), UNIVERSAL SERVICE UKRAINE, (Ukraine), Enerprof Group (Ukraine), YUZHTEKHSERVIS (Ukraine).

For the first time at the exhibition, Noblелифт Intelligent Equipment Co., Ltd. (China) - one of the world's largest manufacturers of full-baked equipment for solving warehouse and logistics tasks.

Industry experts held negotiation with representatives of the group of companies of the Austrian holding First-DDSG Logistics Holding GmbH, the largest shipping company in Europe - 250 vessels for the transportation of general, bulk, heavyweight, cubature cargoes and petroleum products. Guests of the exposition had an opportunity to visit the stand of the leading Shipping Company - Ukrferry.

May 30th - June 1st 2018

INTER-TRANSPORT

GOSGIDROGRAPHY, GE presented large-scale materials on navigational and hydrographic support of navigation at the exposition.

AZOVSKY SHIP-REPAIR FACTORY is the largest diversified enterprise, demonstrated its innovations in ship repair, modernization and construction of floating crafts, production of machine-building products and transshipment of various types of cargo.

The most authoritative **higher educational establishments and research institutes** of Ukraine in the sphere of transport and shipping such as Odessa National Maritime University, National University Odessa Maritime Academy; Odessa state Academy on Building and Architecture; Maritime and Entrepreneurship Institute; Dnepropetrovsk National University of Railway Transport academician V. Lazaryan have made their contribution to the Exhibition work and Events Program.

May 30th - June 1st 2018

INTER-TRANSPORT

Logistics Infrastructure of Grain Market "Agro-LOGISTICS". AP Grupp and Marshall Group of Companies acquainted visitors of the exhibition with self-unloading 20-foot containers for transportation of grain and oil-bearing cargoes.

Private enterprise "SAMPO" - the official representative of the largest manufacturers of elevator equipment - at its stand presented equipment for transportation of grain (noria, belt and chain conveyors), mobile modular grain storage and mobile grain dryers.

YugAngarSroy - the leader in the production of frameless hangars, has traditionally demonstrated its achievements in the construction of frameless arched structures, used as storage facilities for grain, machinery, storage facilities, etc.

May 30th - June 1st 2018

INTER-TRANSPORT

TM GERCULES Company presented tricycles of leading Chinese manufacturers at the open exposition.

Also extended exposition of cars was presented by the companies Automobile House Odessa, ADIS-AUTO, ViDiPalmira, N MOTORS SOUTH, which organized the exposition and test drive for visitors of Mercedes, Mitsubishi, TOYOTA, Nissan GT-R novelties.

May 30th - June 1st 2018

INTER-TRANSPORT

While the Exhibition was working there were registered **more than 1400 visitors**.

As always, during the exhibition, the partners of the project held a number of important events for the industry.

In the framework of the specialized session on **"Construction, reconstruction and technical maintenance of port and coastal structures"** held jointly with the meeting of Ukrainian Ports Association "UKRPORT" Committee **"On Design, Construction and Technical Operation of Port Engineering and Hydraulic Facilities"**. The issues of the need to develop normative documents on the compliance of rubber breakers for maritime moorings to Western standards and their implementation in Ukraine were considered.

At the meeting of the Ukrainian Ports Association "UKRPORT" Committee **"On Technology, Mechanization and Information Technology"**, presentations of handling equipment of the Italian company BEDESCHI, the Kalmar Harbor Range line, the line of the Continental port segment were held, the infrastructure projects of the Balkans, loaders for stuffing containers. At the end of the meeting, the test drive of the new port tractor KALMAR was pleased.

May 30th - June 1st 2018

INTER-TRANSPORT

In the framework of the **round table discussion «Maritime Cities»**, organized by the Odessa Architects' Association, Odessa National Maritime University, Institute of Sea Economy and Entrepreneurship, a discussion of the world experience of cooperation for the development of urban communities and marine business communities was held.

The ground support services of the State Enterprise "USPA" and highways in the Odessa region held a round table discussion of the construction of concrete roads in the south of Ukraine.

The most active participation in the preparation and work and development of the Exhibition and Conference was from the side of the information partners.

The International Week
on Trade and Transport

XVII EXHIBITION

May 30th - June 1st 2018

INTER-TRANSPORT

The transport intellectuals traditionally gathered in Odessa within the framework of the International Transport Week. The motto of the Forum "Inter-TRANSPORT" is "Dialogue. Trust. Action".

At the beginning of summer in Odessa
there was a successful DIALOGUE. We hope that on the basis of such
DIALOGUE the TRUST has been strengthened. We invite you to discuss
future ACTIONS in a year -

**at the XVIIIth International Week
on Trade and Transport,
Exhibition "Inter-TRANSPORT"**

May 29th-31st, 2019

See you soon!
Organizing Committee
"Exhibitions Technologies Centre"
